

OKLAHOMA CHAPTER AWARD NOMINATIONS

OUTSTANDING STUDENT PROJECT

Award recognizes a student or group of students in an Oklahoma planning, architecture, or landscape architecture program for an outstanding paper or class project that demonstrates the contribution of planning to contemporary issues; best applies the planning process; or best exemplifies applied planning research. While it is appropriate to submit a project or paper on which a faculty member(s) has given guidance, the submission should be primarily the work of the students.

ELIGIBILITY

Nominations may be submitted by either faculty or an individual student or student group in a planning program or course in the state of OK. Papers/projects/research must have been completed between January 1, 2020 and December 31, 2022.

CRITERIA

Innovative: Originality of concept or appreciable refinement of existing techniques or procedures.

Transferable: Potential application to other locations, projects, or areas of planning interest.

Quality: Excellence of thought, analysis, writing, graphics, and character of presentation.

Implementation: Effectiveness of the work (proposals have been carried out, show promise of being carried out, or demonstrate an effective implementation technique).

Comprehensive: Planning principles have been observed, especially in considering a project's effects on other public objectives.

**Note: If a category receives only one submission, it will not be treated as a de facto winner. All submissions will be graded by the jury and must show signs of merit to be recognized with an award.*
